**17TH INTERNATIONAL**

**CAGIVA ELEFANT MEETING 2017**

**23 - 25TH JUNE LAROCLETTE, LUXEMBOURG**

The 2017 International Cagiva Elefant Meeting will be held in the Grand Duchy of Luxembourg, located in the center of western Europe and bordered by Belgium to the west and north, Germany to the east, and France to the south. Its culture, people and languages are highly intertwined with its neighbours and immigrants, making it essentially a mixture of French, Belgium, German, Italian and Portuguese cultures. The charm of Luxembourg is entirely based on this multi-cultural environment.

The most beautiful Elefants on the planet, joined Elefant rides trough four European Countries, a great campsite with good food, Award show & campfire evenings - All these reasons will make it the event of the year that you can not miss: The 2017 Cagiva Elefant International Treffen. In order to participate you must book at the following link:

This newsletter has the motivation to update the Cagiva Elefant Community about the preparation status of the 17th International Cagiva Elefant Meeting 2017. All information can be found as well on the [www.cagivaelefant.org](http://www.cagivaelefant.org) website.

Unfortunately the organisers are not present on Facebook or other social media channels. A website is a media that requires a community to share. We therefor would like to encourage all of you who have a social media presents to share our site to reach as much Elefant riders as possible.

We have at this point in time 5 weeks left before the most important Cagiva Elefant Event of 2017. You should receive further Newsletter updates until the event takes place. The reason why you receive this Newsletter is because you did sign-up for at least one International Cagiva Elefant Meeting between 2015 and 2017. **If you want to unsubscribe from this newsletter because you feel spammed, please drop an email to!**

## CURRENT STATISTIC TO DATE

**We are very proud to announce 102 Inscriptions until today**

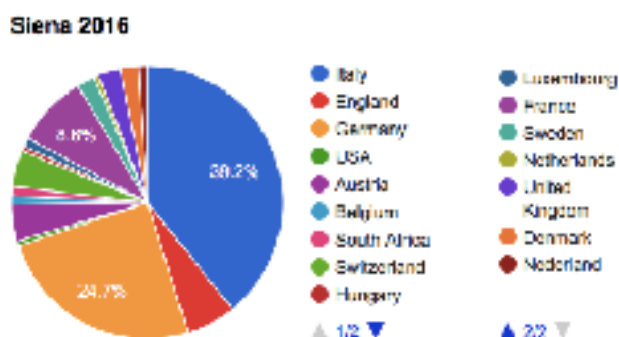

Registration still open until 20 June!!!

### Which countries are joining us and which nations are first in statistics

Luxembourg 2017 (Figures until today):

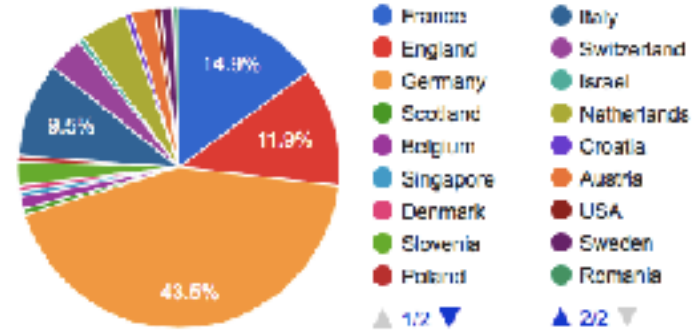

It is obviously interesting to compare these figures with the last two events, as before 2015 there isn't a lot of input available. In Italy (the home country of our favourite animal) Italian Elephant Riders were obviously dominating. They have been followed by Germany - which is always very strongly represented. As 3rd nation we had France, followed by UK, Austria and Switzerland, which are all closely together. It is amazing that in total 16 nations found their way to Tuscany. Some of them had a really long journey to get there. The US and South Africa have been clearly the highlights, but also Sweden & Denmark are quite a distance. We thought that we even saw again some number plates from Poland but we couldn't find them in Pauls figures. Based on the available data 186 participants made their way to Sovicille (Siena) if the input is complete. Maybe our Italian

friends can provide us some confirmation or updates.

### Val D'Ajol 2015

2015 was dominated by the Germans, which becomes obvious when you study the map and find out that Voges isn't that far away from Germany. Even if it was organized by the South African Riders, as the event took place in France, France was the 2nd

strongest country on the participation list - followed by UK and Italy. Highlights have been Riders from Singapore, USA, Israel - but also Romania, Poland and Sweden. It total 168 participants from 18 different nations found their way to Val D'Ajol.

For Larochette we don't even dream about a success similar to the last two events. Val D'Ajol and Sovicille have been gorgeous locations and events. We might not be able to compete with them but we do our best and believe Larochette is a great location as well. Due to the multicultural advantages and the central location we hope that the surrounding countries will join us. Every single BeNeLux Elefant should hopefully be there. The Germans are our neighbours. We can expect the Germans to become again the biggest group of Elefant Riders but France is also close to Luxembourg in terms of distance but also language. We think further that our chances are good to motivate the Italians to participate in a similar way, as they had 25% Germans motivated to travel all the way down to Tuscany. Finally the last events did proof that the International Cagiva Elefant Meeting is truly international and we hope that some of the more exotic countries are interested to come over. We promise to do our best that it becomes the best possible experience to experience our country by Elefant.

Even if we are more than happy with the result we had to notice that we so far didn't get in 2017 the very exotic countries on board. We assume that it is difficult for us to reach them. Again if you can find any opportunity to promote the event to Cagiva Riders somewhere in the world, please feel free to do so.

### The following graph should represent the 2017 total registrations until today:

What else could be interesting? Obviously the event is open for any kind of bikes. We especially love to see Enduros from the 80s and 90s but at the end it's the annual international Elefant event. People are excited and come over because of the Elefants.

### How many people are coming by Elefant (E), other other bike (B), as Passenger (S), with Car or Van (C)?

Luxembourg 2017 (Figures until today):

**Siena 2016**

In Italy 2016 there was no data available about who did come by car but we saw plenty of amazing Elephants there.

**Val D'Ajol 2015**

In France 2015 68% of the participants did join with their Elephant.

**It could as well be interesting to know how many of your friends stay with you at the campsite in a tent or share a bungalow:**

**Luxembourg 2017 (Live figures up to date):**

If you want to compare them here the figures from the past. They highlight clearly that most Elephant Riders are still prefer to stay for the event in a tent. For most of them the event seems to be still more important than sleeping offsite in a 5 star location. But that's fully up to you! Most important is that you enjoy the event in your own way.

**Siena 2016**

**Val D'Ajol 2015**

For 2017 we introduced for the first time the option of multiple event Shirts: There is a classic entry option which is single sided but in color for 9 Euros; the standard two side option is 19 Euros - it has on the backside the history of all International Meeting until today - and finally we have a Long Sleeve Shirt that is four side printed and that you can even order in XXXXL for wearing with a protector under it while riding your Elephant during summertime.

We didn't know if the idea was accepted or if people thought about it as unnecessary nonsense. For that reason we have been more than curious about the outcome. The first result is that the idea was apparently well accepted. Some of the riders just want to have a memory and go for the S1 model. Others take even multiple Shirts. A popular combination is S1 and S4. For that reason the S1 Shirts had after 2 weeks more than 40% market share. But overall, all the different Shirts have been well accepted. So even if it is a gadget, choice is apparently welcome to you.

**Luxembourg 2017: Which Event-Shirts are the most popular:**

**S1 T-Shirt angle side:**

**S2 T-Shirt double side:**

**S4 Long Sleeve Shirt four side:**

**Finally here the list of participants that join us until today:**

# 17th INTERNATIONAL CAGIVA ELEFANT MEETING 2017

23 - 25 June 2017  
LAROCHETTE/LUXEMBOURG

[www.cagivaelefant.org](http://www.cagivaelefant.org)

## Introduction to Meeting Location Larochette

The 2017 International Cagiva Elefant Meeting will be held in Larochette - or "Fiels" in Luxembourgish, located in the center of Little Switzerland ("Petite Suisse") of Luxembourg, Mullerthal - or "Mëllerdall" in Luxembourgish - owes its name to its hilly landscape reminiscent of Switzerland.

Larochette is an old market town, lying in a narrow rocky valley, entirely surrounded by woods. It is located on a one-mile stretch along a densely-forested deep river valley of hardened sandstone. Larochette is dominated by an old castle (12th century), partially rebuilt, which stand on a rocky crag high above the beautiful and romantic valley of the White Ernz. Medieval square and historic monuments. Old streets... Finally its Irene's home town.

We think is a worthy location for the 17th International Cagiva Elefant Meeting.

As you can imagine Luxembourg is not the cheapest place in Europe. Its a bit like Switzerland and we can do nothing about it. Some of you made it clear to us that one fraction of the riders prefer to go back to the basics and keep the budget limited while we noticed that there are also guys who prefer to have some luxury instead of spending the Weekend in a tent in the rain. Remember that Luxembourg is not Tuscany and the weather in June could potentially be unpredictable. We had a hard time of negotiation but we are glad to announce that we managed not to exceed the budget of 2016. But lets keep that discussion for later and get first of all back to our selected destination.

**As mentioned in the last article when we introduced Luxembourg** - this country is all about multiple cultures. The proportion of foreigners in Larochette is 63,7%. The village has 1979 inhabitants. 718 of them have a Luxembourgish passport. Even if a lot of them got their Luxembourgish nationality recently they are still a minority and outgrown by Italian and Portuguese people. Portuguese are with 909 inhabitants or 46 % clearly the

majority in Larochette. During summertime the village is full of tourist. Dutch people are here the clear majority. But end of June should be still quiet.

Larochette consists of two parts, the medieval city around the "rue de Mersch" and today's centre around the marketplace "Bleech". This newer part was situated outside the former city walls. In the flourishing period of the textile industry, the fabrics were put in the sun here, on the banks of the river "Ernz" to bleach, which explains the name "Bleech". The place has been renovated and decorated in style, and surrounded by shops, hotels, restaurants and cafés, the Bleech is also "the" place to go for a good meal or a drink on one of the beautifully located terraces around this very "picturesque" centre.

The location is gorgeous. Larochette has a lot to offer : The always fascinating nature, the tourist attractions, a nice square (Bleech), the fine restaurants and cosy cafés. With its central location, Larochette is the perfect base for trips in the entire Grand Duchy of Luxembourg. We looking forward to see your Elefant's located on the Bleech while their riders are enjoying a drink at the surrounding terraces.

Nice small bike roads lead from this central location through forests to the South: Mosel (river) and French boarder; East: Sauer (river) and German boarder; West: Luxembourg city ; the North with the endless valleys and the Belgium boarder. Luxembourg is beautiful for motorbike riding on roads but there is an issue with the off-road part. 50 Elefants riding through the forest like in Tuscany would certainly end up in newspapers and potentially in jail. There is a professional cross track in the north if enough people would be interested in such an option but it will not be cheap as we would need an

insurance and so on. We are working with some local guys on alternatives on the Belgium border. So don't worry, we will organize something.

Our camping is on top of the beautiful middle age village and on the opposite site of the old castle (search for the Elefant on the following map). The place should be Elefant friendly and has **experience with other bikes** - (I know - they are also not our favorite kind of bikes) - so we should be welcome. After a ride, in case you are looking forward to have a beer, is not far to walk down to the Blech. The area is beautiful and its an easy walk down a very nice route by footpath - so if you want, you are able to leave your Elefant safe on the campsite. The way up depends of cause on how much beer you had. If you are brave you try the path by Elefant but It is certainly forbidden.

The campsite has a indoor/outdoor pool which can be opened in hot weather. Facilities very good, heated floor in sanitary block, showers good, everywhere clean. Good well, stocked shop & takeaway food...

As usual the campsite is has a rule of silence after 11pm so you have to get the Elefant's in before or leave them at the entrance where they should be safe.

Thanks to *Rebecca* for the feedback to push for a place where we are located all closely together and have a bit of isolation from the rest of the tourist. We think we managed to achieve exactly what you have been asking for and it did help us further with the pricing negotiation. The bungalows that are reserved for us should be booked not last minute as they are not to far away from the Elefant meeting place. The only downside could be that you might have to walk a view meters to the restrooms and showers - but they are first class. The highest priority was that we are all together - But lets disclose the packages in another chapter...

Further thanks to *Peter Deutschl* to push for high quality food. We did our best and we are confident that you will like it. As **stated earlier** food is important in Luxembourg. There was further the suggestion by several of you to have the food on Friday served until midnight because there would always be people that arrive late. We thing we addressed that as well - But lets disclose the menu in another chapter...

Any further suggesting are welcome:

### So how to get there?

By Elefant or Car the town of Larochette is located a 30 minute drive away from Luxembourg City. A public bus connects Larochette with the capital, Mersch, Diekirch and Echternach. Free parking spaces in the village for Elefants and cars are usually not a big issue.

Larochette-Diekirch (heading north) via N14;  
Larochette-Mersch (heading west) via CR118;  
Larochette-Luxembourg City(heading south) via N14;  
Larochette-Echternach (heading east) via CR118.

GPS (place Bleech):  
49.78406, 6.22021 N  
49 47.044, E 6  
13.213  
GPS (Camping):  
49.7851, 6.2101

The green field (X) next to the campsite is reserved for us to make sure that we are on our own. The yellow path is the footpath to the Bleech.

Finally: If you look for something very special - one of the strangest pubs outside Luxembourg city is located only 1.5 km from the Bleech:

## Registration process

Bernd from Germany:

***“Das Anmelden ist ein bisschen, sagen wir mal umständlich.”***

(The registration process is - lets say - difficult.)

Sorry if you feel like you need a Master to register. We did our best to make it as easy as possible ;)

As usual the registration is done via the [www.cagivaelefant.com](http://www.cagivaelefant.com) website. The registration procedure is the same as every year. There are a few more options as in the past. You should book these options upfront to benefit from the pricing that we did arrange with the camping. As last year there is a base package price that cannot be split. It is mandatory for everybody and independent from the accommodation part. You might think that 75.70 Euro just for the base package might be expensive but please keep in mind that it includes the entire organization, four meals (2x breakfast and 2x dinner) and all gadgets (Wristband, documentation, maps, event decal, Oekotax, ...)

Its the same as last year: Even if you benefit only from 2-3 meals you need to calculate the full amount for the base package because otherwise we wouldn't have been able to negotiate these prices.

The good news is that all other costs are optionally. A tent for two nights is only 18 Euros unless it is shared by more than two people. This means: Two riders on two Elefants that share one tent pay twice the base package and only 18 Euros additionally for the accommodation. Two guys sharing one Elefant pay of course the same. If you feel like you need a more luxury stay, you pay for it individually. If you stay in a hotel in town you pay only the base package per person.

The organisers do **NOT** take responsibility to organize other accommodation, off the campsite or outside the official event days (23. - 25 June). You have to do this yourself. You can reach the camping under [infor@birkelt.com](mailto:infor@birkelt.com) or via phone: +352 879040.

Here some important rules that you should fully understand before you register:

**Food:** Mandatory; 2x Breakfast + 2x dinner (drinks not included)

Bed linen: **Optional**, to be calculated per Person, paid onsite and not upfront

Towels: **Optional**, to be calculated per Person, paid onsite and not upfront

Cleaning: **Optional** (only Bungalow and **only if the place is not professionally cleaned by the customer**)

Tent: **Max 2 pers** incl. 220V 10A

Camper: **Max 4 pers** incl. 220V 10A

Bungalow Fiji: Max 4 pers

Bungalow Bali3: Max 4 pers

Bungalow Bali1: Max 4-6 pers

Bungalow Bali4: Max 4-6 pers

Further we have different Shirts and you can order upfront as much as you want from them. There is again a classic entry option which is single sided but in color for 9 Euros; the standard two side option is 19 Euros - it has on the backside the history of all International Meeting until today - and finally we have a Long Sleeve Shirt that is four side printed and that you can even order in XXXL for wearing with a protector under it while riding your Elefant during summertime.

The following examples are to visualize what you get. We did order some examples to make sure that the quality is ok. The final design will be similar.

T-Shirt single side:

T-Shirt double side:

Long Sleeve Shirt four side:

To facilitate the inscription process and make sure that you get a full transparency of your event cost, we did develop a spreadsheet. Feel free to start your simulations for the event subscription. We further advise you to save a copy or a printout of you final spreadsheet, to prevent any misunderstandings after the registration process.

The spreadsheet can be found here:

## More Program Info

When you register at the Camping scheduled for Friday 23th of June, from 14.00 to 18.30, it is essential to complete the form for the Saturday morning tour, specifying in the appropriate check box if you prefer the guided or free option.

After the registration you receive your welcome package including maps indicating all possible tours, information about the meeting area's, cultural points of interest, event decals, event shirts and other stuff.

The two lunches on Saturday 24th and Sunday 25th of June are up to you and not included in the package, in order to let you free to organize the motorcycle tours as you like on both days.

The legendary memory photograph of the event will take place Saturday 24th of June in the afternoon, after the ride and before the dinner. Sorry but on Sunday morning most of you guys are still dead from the Saturday night. That's why we decided to organise it Saturday.

On Saturday 24th of June, at about 21:45, some Cagiva Elefant's, will receive a prize according to a ranking exposed in the stand area.

The event speech and award ceremony will **not** take place in the dining area but in our private Elefant village at the end of the campsite. Please make sure that you arrive there in time. The bikes together with the owners will be asked to go on stage to receive the prize. Finally we will end the formal part with the award ceremony of the Alex Fischer price and disclose the event location for 2018 (and maybe even 2019). After the formal part there is an open end informal part in the Elefant village with beer, MusikBähr & his Guitar.

On Sunday 25th of June we will close the event with a decent breakfast and some farewell greetings.

**Remember to keep a civilised and decent behaviour within the campsite Birkelt. Please do not ride the bikes after 22.30 and stay cool!**
